Concrete paving flags

B.V. Bleijko Betonindustrie

STATEMENT BY KIWA

This Product certificate has been issued on the basis of BRL 2313 "Concrete paving flags" date 2005-01-01, including amendment 2008-12-15 in accordance with the Kiwa Regulations for Product certification.

Kiwa declares that legitimate confidence exists that the drainage channels manufactured by the producer at delivery comply to the technical and environmental health specifications as laid down in this Product certificate, provided that the drainage channels have been marked with the KOMO[®] mark in the manner indicated in this Product certificate.

Kiwa declares, with consideration to the above, that the drainage channels are in accordance with the relevant requirements of the Soil Quality Decree.

Within the framework of this Product certificate, Kiwa does not impose any inspections on the duty to report and/or obligation to supply information of the user to the proper authorities.

This certificate is recognised by the Dutch ministers of Infrastructure and Environment for the Soil Quality Decree if it is included in the "List of acknowledged quality declarations in the building industry" on the websites of the "Stichting Bouwkwiteit" (SBK): www.bouwkwiteit.nl and of Bodem+: www.bodemplus.nl.

Concrete paving flags

TECHNICAL AND ENVIRONMENTAL HEALTH SPECIFICATION

Product specification

The prefabricated concrete paving flags and complementary fittings are intended for use in trafficked paved areas and roof coverings. The quality of the products is first determined by law at 35 days of age, exclusive frost days (average twenty-four hour temperature less than 5°C). Concrete paving flags can be used in building works which come into contact with rain water, ground water and/or surface water.

Environmental health specification

The average composition values determined by agreement AP 04-SB and the average emission determined by agreement AP04-U for the intended field of application comply with appendix A of the Soil Quality Decree.

Conditions for application

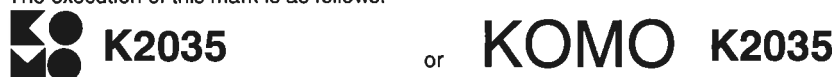

Concrete paving flags should be applied in accordance with articles 5, 6, 7 and 33 of the Soil Quality Decree (functionality, duty to maintain and recycling).

Marks and indications on the delivery documents

Every package of concrete paving flags will be marked with:

- The KOMO[®] image or work mark and the identification of the manufacturer (logo and/or K number);
- Production date.

The execution of this mark is as follows:

Additionally the delivery note will be marked with the KOMO[®] image or word mark in accordance with the figures below:

The KOMO[®] image or word mark is clearly visible on the delivery note.

The KOMO[®] products on the delivery note are marked by means of coding, such as "KOMO" or "K".

Other compulsory indications:

- Identification of the manufacturer or factory (name or trademark);
- Identification of the chosen classes of the European standard or a reference to the national preface in NEN-EN 1339;
- The number of the European standard NEN-EN 1339;
- Identification of the date if the products are delivered before the date they are declared suitable for use.

RECOMMENDATIONS FOR THE CUSTOMER

Check on delivery whether:

- The products are in accordance with the agreement;
- The mark and marking method are correct;
- The products show no visible defects resulting from transport and suchlike.

If you should reject a product on the basis of the above, please contact:

- B.V. Bleijko Betonindustrie in Walsoorden;

And if necessary:

- Kiwa Nederland B.V.

Consult the certificate holder's guidelines for the correct method of storage, transport and processing.

Hand over the items of proof (delivery dockets/ground evidence and certificate) to the customer. This does not apply for deliveries to physical persons other than for professional purposes.

RECOMMENDATIONS FOR THE CUSTOMER

Keep the proof (delivery dockets/ground evidence and possibly the certificate) available for at least 5 years for inspection by the authorised bodies. This does not apply for deliveries to physical persons other than for professional purposes.

CONSTRUCTION PRODUCTS REGULATIONS CPR

If a construction product is subject to a European harmonised technical specification, the statements in this KOMO[®] product certificate must not be used as a replacement for the CE marking on such construction product and/or for the associated obligatory Declaration of Performance.
